In order to measure performance on an historic basis, the Group has made use of the non-IFRS measures described below. These alternative performance measures (APM) are provided to enable a deeper understanding of the Company's financial performance and is used by management to measure performance. The APMs should not be considered as a substitute for measures of performance in accordance with IFRS.

Alternative performance measures (APM)	Reason for use	Definition
	The Group believes that the measure provide information of the profitability of	Defined as EBITDA excluding income and/or cost items which are not regarded
	the Group's operating results for the period without regard to costs for the pe-	as part of the underlying operational performance for the period. The Group has
	riod that are expected to occur less frequently.	adjusted for one off costs related to start up cost of CLEANBU vessels.
EBITDA adjusted	The Country lives the country of the Country	D. G
	The Group believes the measure provides useful information of the Group's overall financial performance, excluding the impact from financial items, taxes	Defined as EBIT excluding income and/or cost items which are not regarded as part of the underlying operational performance for the period. The Group has
	and cost for the period that are expected to occur less frequently.	adjusted EBIT for one off costs relating to start up cost of CLEANBU vessels.
	and cost for the period that are expected to occur less frequently.	adjusted EBH for one on costs retaining to start up cost of CEE/MDO vessels.
EBIT adjusted	The Group believes that average revenue per onhire day provides useful infor-	Defined as net revenue excluding adjustments divided by number of onhire-
	mation about the Group's earnings and has included the APM as the measure is	days. Net revenue excluding adjustments is defined as total net revenue from
