

To the Board of Directors of Klaveness Combination Carriers ASA

Independent accountant's assurance report

Scope

We have been engaged by Klaveness Combination Carriers ASA to perform a limited assurance engagement, as defined by International Standards on Assurance Engagements, here after referred to as the engagement, to report on selected indicators in Klaveness Combination Carriers ASA's sustainability reporting as of 31 December 2021 for the period from 01 January 2021 to 31 December 2021. The selected indicators included in the "Subject Matter" are:

- EEOI (Energy Efficiency Operational Index)
- Average CO2 emissions per vessel
- % in combination trade
- Ballast days in % of on-hire days
- Benchmark 2021
- Total greenhouse gas emission (scope 1, scope 2 and scope 3)

Other than as described in the preceding paragraph, which sets out the scope of our engagement, we did not perform assurance procedures on the remaining information included in the sustainability reporting, and accordingly, we do not express a conclusion on this information.

Criteria applied by Klaveness Combination Carriers ASA

In preparing the Subject Matter, Klaveness Combination Carriers ASA applied two set of criteria ("Criteria"). For EEOI (Energy Efficiency Operational Index), Average CO2 emissions per vessel, % in combination trade, Ballast days in % of on-hire days, and Benchmark 2021 the applicable criteria is shown on page 12 of the report. For Total greenhouse gas emission reporting (scope 1, scope 2 and scope 3) the relevant criteria applied is the Greenhouse Gas Protocol that can be accessed at www.ghgprotocol.org and are available to the public. Such Criteria were specifically designed for companies and other organizations that want to report their sustainability impacts in a consistent and credible way. As a result, the Subject Matter information may not be suitable for another purpose. We consider these reporting criteria to be relevant and appropriate to review the sustainability reporting.

Klaveness Combination Carriers ASA's responsibilities

The Board of Directors and Chief Executive Officer (management) are responsible for the selecting the Criteria, and for presenting the Subject Matter in accordance with that Criteria, in all material respects. This responsibility includes establishing and maintaining internal controls, maintaining adequate records and making estimates that are relevant to the preparation of the Subject Matter, such that it is free from material misstatement, whether due to fraud or error.

EY's responsibilities

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted our engagement in accordance with the International Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information ('ISAE 3000'). This standard requires that we plan and perform our engagement to obtain limited assurance about whether, in all material respects, the Subject Matter is presented in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusions.

Our Independence and Quality Control

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants. EY also applies *International Standard on Quality Control 1, Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements*, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Description of procedures performed

Procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

A limited assurance engagement consists of making enquiries, primarily of persons responsible for preparing the Subject Matter and related information and applying analytical and other appropriate procedures.

Our procedures included:

- ▶ Review of Klaveness Combination Carriers ASA's process for preparation and presentation of the sustainability report to develop an understanding of how the reporting is conducted within the business
- ▶ Interviewed those in charge of sustainability reporting to develop an understanding of the process for the preparation of the sustainability reporting
- ▶ Verified on a sample basis the information in the sustainability reporting against source data and other information prepared those in charge

- ▶ Assessed the overall presentation of sustainability reporting against the criteria in the Greenhouse Gas Protocol
- ▶ Assessed the overall presentation of KCC's own sustainability key performance indicators

We believe that our procedures provide us with an adequate basis for our conclusion. We also performed such other procedures as we considered necessary in the circumstances.

Conclusion

Based on our procedures and the evidence obtained, we are not aware of any material modifications that should be made to the Subject Matter as of 31 December 2021 and for the period from 1 January 2021 to 31 December 2021 in order for it to be in accordance with the Criteria.
